

John Gerrish & Associates, LLC

COURSE NAME: Air Force Joint Manual (AFJMAN) 24-204 – Refresher Class
DOD 4500.9R, Defense Transportation Regulations

ONLINE TRAINING COST: (\$295.00 each for 1-4 Students) (\$250.00 each for 5-24 Students)
(\$195.00 each for 25-49 Students) (\$150.00 each for 50-99 Students)

Provides the recurrent training required and outlined under AFJMAN 24-204. The AFJMAN 24-204 governs the transport of hazardous materials when entered into Defense Transportation System (DTS) as cargo on military controlled fixed and rotary wing aircraft according to (DOD 4500.9R), Defense Transportation Regulation.

This course reviews the skills needed by handlers, packers, inspectors and preparers (certifiers) of hazardous materials so that they comply with the rules designed to maximize safety and security of the aircraft, aircrew, cargo and passengers on Joint Military Airlift. The provisions of this manual are directive in nature, and must be complied with by those personnel whose positions or jobs entail responsibility for the functions covered. This course is also required for military suppliers & contractors who have the responsibility to supply finished goods and products for shipment by military air. This training is a systematic program that ensures a hazmat employee/student has familiarity with the changes that have occurred over the past year(s) in AFJMAN 24-204. Instruction will focus on non-bulk packages offered into transportation.
NOTE: All branches of the U.S. Military use this document as the basis to prepare hazardous materials/dangerous goods shipments by military air transport.

PRE-REQUISITE: Successful completion of an “Initial” AFJMAN 24-204 training class and a Hazardous Materials in Ground and Air Transportation class within the past two (2) years.

LEARNING OBJECTIVES

At the conclusion of this course, the student will be able to:

- 1.) Navigate the Air Force Manual 24-204(I)
- 2.) Pack, package, mark & label hazardous materials in accordance with Air Force Manual 24-204(I)
- 3.) Prepare all necessary documentation e.g. Shippers Declaration for Dangerous Goods by Air in accordance with Air Force Manual 24-204(I)

Through all of this, emphasis will be placed on each student’s responsibility when offering hazardous materials into ground and/or air transportation.
