

John Gerrish & Associates, LLC

COURSE NAME: Hazardous Materials in Air Transportation
Online Training - Recurrent
IATA Regulations

ONLINE TRAINING COST: \$150.00

Provides the recurrent training required and outlined under the International Air Transport Association (IATA) Dangerous Goods Regulations (DGR), Section 1.5.

This course reviews the skills needed to prepare, offer and accept air shipments of hazardous materials. It is a systematic program that ensures a hazmat employee/student has familiarity with the changes that have occurred over the past year(s) in hazardous materials regulations. Instruction will focus on non-bulk packages offered into transportation.

NOTE: This course does not cover the regulations for offering radioactive (Class 7) or infectious shipments into transportation.

PRE-REQUISITE: Successful completion of a Hazardous Materials in Air Transportation class within the past two (2) years.

LEARNING OBJECTIVES

At the conclusion of this course, the student will be able to:

- a. Identify changes in the International Air Transport Association (IATA) Dangerous Goods Regulations (DGR).
- b. Understand how the changes relate to their organization, their product and to them as an employee.
- c. Prepare, offer and accept most domestic and international air shipments of hazardous materials.
- d. Recognize and identify hazardous materials in transportation.
- e. Understand the specific requirements of the regulations as it relates to their job function.
- f. Understand the precautions to be taken when handling hazardous materials.

Through all of this, emphasis will be placed on each student's responsibility when offering hazardous materials into air transportation.
